

Graham Trail

Roberts Regional Recreation Area

Trail Length 0.5 mi (0.8 km)

Network trail

This section of the Graham Trail meanders through a grove of redwood trees and borders the east side of Roberts Park. A multi-use trail that offers shade and tread challenges is part of a network of trails, connecting Roberts Park with Redwood Park.

Cumulative Gain 182 ft (55 m)
Elevation Change Loss 67 ft (20 m)

Trail Uses

Bicycling

Equestrian

Hiking

Hazards and Obstructions

Rocks
Greater than 4 in.

Roots
Greater than 4 in.

Typical Grade is 9.9%

9% of the trail is between 20% and 25%
0 ft (0 m) is between 30% and 25%
8% grade is a standard ramp.

Typical Cross Slope is 3.9%

10% of the trail is between 8% and 10%
250 ft (76 m) is between 8% and 10%

Typical Tread Width is 105 in (268 cm)

Tread Width ranges from 72 in (183 cm) to 250 in (635 cm)

Trail Surface is Soil

100% of the trail is Firm or better
2520 ft (768 m) of the trail is Firm or better

Trailhead Location

There are two points of access from the main parking lots.
As well as a ccess from the Chabot Space and Science Center.

Trail Access Information

Warning: Trail conditions may have changed since the trail was assessed. Temporary obstructions (e.g. fallen trees or land slides) may not have been mapped. Maximum grades and cross slopes may vary.

Obstructions less than 4 in or outside the tread area a 72 in wide by 96 in (24 m) high were not measured. Minimum clearance boundaries were at least 4 in high.
