February 2, 2012

Dear Neighbors of Mission Peak Regional Preserve and the Stanford Staging Area:

The purpose of this letter is to update you on the status of alternative parking sites at the Stanford Staging Area for Mission Peak Regional Preserve. The City of Fremont and East Bay Regional Park District (EBRPD) have been working towards a solution to the parking congestion created by the daily influx of cars and users on the trails leading to Mission Peak.

The Park District has been focused on providing additional off-street parking at the Stanford Staging area and created a site plan for the development of parking for approximately 70 cars on City owned land directly across from the gated entrance to Vinehill Terrace. However, observations by park staff at the Stanford Staging Area and the surrounding streets indicate that the need for additional parking is far greater than 70 cars. Because of this, EBRPD has expanded their possible parking sites to include the development of a 300-car parking area within the park.

The Park District will be presenting their proposals for alternative parking sites at the City of Fremont / EBRPD Liaison Committee meeting to be held on Thursday, February 23, 2012. The meeting will be held in the **Fire Training Room in City Hall, Building A**. The training room is on the southeast side of Building A, located at 3300 Capitol Avenue.

Alternative Parking Proposals for Stanford Staging Area will be just one of the agenda items at the Liaison Committee meeting on February 23rd (see agenda enclosure). Although the meeting starts at 6:00 p.m., if you would like to attend the meeting for the Alternative Parking Proposals item only, for your convenience, that agenda item will begin no earlier than 7:10 p.m.

If you have any questions or concerns, please call Recreation Superintendent II, Laurie Rogers at (510) 494-4332.

Sincerely,

Annabell Holland
Community Services Director
City of Fremont
