Throughout these years, Carquins and other Ohlones continued to live and work in the Bay Area, where they are involved in protecting ancient sites, including Ssogoreate, a village along Carquinez Strait.

VEGETATION & WILDLIFE
This landscape is characterized by bay and oak woodland, grassland, chaparral, and intermittent creeks that support abundant wildlife, including hares, skunks, deer, bobcats, gray fox, coyotes and raptors.

FACILITIES
Crockett Hills offers a welcome respite from the bustle of urban life. There is a restroom, drinking water, picnic tables and an information panel at the staging area on Crockett Boulevard where Edwards ranch buildings remain. From the staging area a network of trails leads through woods up the hill to a tunnel under Cummings Skyway that accesses the rest of the park, open to pedestrians, bicycle riders and equestrians.
