

Mission Peak Needs Your Help!

Off-trail **shortcuts** cause **erosion** that damages the fragile ecosystem and creates dangerous and ugly scars in the landscape.

Park trails are designed for **safety** and **erosion control**.

Please use the official trail and do your part to protect your park.

If you would like to help with Mission Peak restoration projects, contact
510-544-3247 or sunol@ebparks.org
