Trail Description

This hiking, biking, and equestrian trail connects Las Trampas Regional Wilderness to Mt. Diablo State Park. It passes through Hap Magee Ranch Park, under I-680, weaves its way over the ridges across Stone Valley Road in Alamo, ascends the grassland and chaparral-dotted slopes overlooking the valley, and enters Mt. Diablo State Park at Macedo Ranch Gate. Passing through residential and open space areas, it provides convenient access and offers an interesting contrast between residential development and parkland.
