

EAST BAY REGIONAL PARK DISTRICT
Internship Program

Project Supervisor Compliance Agreement

Once a proposed internship project is approved, the internship coordinator will send a copy of the Internship Manual to the project supervisors. To receive the funding for that summer or academic internship, however, the project supervisor must have read the entire Internship Manual provided. This is an important requirement because the District expects all stakeholders to adhere to the internship guidelines, both to ensure the efficient and effective management of the internships, but also to ensure that summer and academic interns receive the best experience possible.

By signing this form, I agree that I have read the Internship Policies and Procedures Manual and I understand that I will be expected to follow the guidelines set forth in the manual.

Signed,

Name _____ Date _____
