Q24.0 As I said earlier, your responses will remain completely confidential. However, many trail users want to receive information from the District from time to time either by regular mail or by e-mail. If you would like to be on our mailing list, I will be happy to write down your address and e-mail and have them added to our data base.

Q25.0 From time to time, the District likes to contact constituents throughout its service area to secure input regarding policy issues that can impact the types of services being provided to users of our regional parks and trails. Often times, we do this by phone. Would you like to be on the list of park users that we might call from time to time?
