RESPONSES TO INQUIRIES (IN RED) REGARDING EBPRD CMMS RFP March 15, 2018

- Are you able to specify how many System users you anticipate will be utilizing the new CMMS?
 - Park sites and Trades and Management staff – 100+ Users. There will need to be differing levels of “permissions.”
- Can you comment on the data desired to be brought over from your legacy CMMS? Specifically, can you define what kind of historical data would you like migrated (location data, user information, asset information, historical work orders, PM work orders, etc.)?
 - Work Order History, Assets, Users, Vendors and attached documents + photos
- How many records would you like transferred?
 - Estimating 50K
- In what format does this data exist currently?
 - SQL Server
- Can you define the total Square Footage of all facilities located on park lands that are in scope for this project?
 - We are working on a five-year assessment (to end in 2019) of all District facilities, which includes square footage of these facilities. This data will be available in Excel format.
- Would the District consider extending the due for this RFP?
 - At this time, it is unlikely that we will extend the response period. If we do not receive enough bids, or if all bids fail to meet the minimum requirements, the District will then consider re-posting the RFP.
