

# EBRPD FUEL MANAGEMENT STATUS UPDATE

**BACKGROUND:** In 2010, the East Bay Regional Park District’s Board of Directors approved the Wildfire Hazard Reduction and Resource Management Plan (“Plan”) and the accompanying CEQA document which covers hill and shoreline parklands from Richmond to Castro Valley within the Measure CC funded area. The approved Plan is an integral component of the Park District’s Safe and Healthy Forests initiative for wildfire protection.

**PURPOSE:** The purpose of this work is to establish a zone of natural habitat that is resistant to wildfires. Hazardous wildland vegetation, including dense, overgrown brush and trees will be reduced in the wildland-urban interface near homes. Healthy native oak and bay trees will be preserved where feasible. The work is prescribed by FEMA and fully permitted by State and Federal environmental regulatory agencies. The Park District’s Fire Department is managing the implementation of this project while the Stewardship Department is coordinating project biomonitoring, resource protection, and regulatory compliance.
