

Concord Hills Regional Park

Community Open House Meeting

Saturday, October 26, 2019

9:30 a.m. to Noon

Concord Hills Regional Park

Concord, CA

The East Bay Regional Park District invites the public to learn about future plans to provide a new regional park in Concord, on the former Concord Naval Weapons Station. Concord Hills Regional Park is the working name for a unique new regional park which will provide a full range of trail opportunities, wildlife preservation and environmental and historic interpretation. Park naturalists will lead walking tours to the future Visitor Center (a partnership with the National Park Service), and to the former weapons magazines which will be incorporated into the future Park. Learn about and comment on the environmental review being done for the future Park.

Please RSVP for the meeting and learn more by visiting: www.ebparcs.org/cnws. Parking and driving directions will be provided once the free registration is received.
