The GO! Network for Healthy Kids will serve as a model and catalyst for regional wellness and education. I wholeheartedly support this proposal and hope it receives favorable consideration.

The GO! Network for Healthy Kids will serve as a model and catalyst for regional wellness and education. It will provide a transformative environment for children to develop healthy eating and physical activity habits. The GO! Network will also promote partnerships between schools, families, and communities to create a healthy environment for all children.

The GO! Network has several key components. It will train teachers and school districts to use the curriculum effectively. It will also provide resources and support to schools to implement the program.
