The District is a public agency. Its assets are owned by the taxpayers who support the District and are entrusted to the care of the District's personnel for use only on legitimate public business. No individual is entitled in any way to any of the District's assets. Violation of any of these prohibitions may result in severe disciplinary action, including arrest and legal prosecution for misappropriation.

1. Equipment will be under the responsibility of a District employee who is participating in the service or event as a non-paid volunteer, not as a District employee. The Park District assumes no responsibility for either the equipment nor the employee, who will be acting in the capacity of a private citizen on his/her own time.
2. Should the request involve major pieces of equipment, some value or return to the District must be included in the approval.
3. Liability for the equipment must be accepted by the group requesting use of the equipment.

Firearms, computers, or any equipment that is potentially hazardous or of high value will not be left unattended or in vehicles unless secured in a permanently affixed lock box.
4. Interns and Student Aides may drive District vehicles with their Supervisor's approval provided they comply with all conditions of this policy. Volunteers, other than Public Safety Reserves, may not drive District vehicles. Public Safety Volunteers, with authorization by the Police Chief, may drive the Mobile Command Center and designated District vehicles while serving in their capacity as volunteer.
5. Employees shall not provide any non-employee a ride in a District vehicle except as a part of official business or when family members are accompanying the employee to District functions or facilities. Official business may be extended to include providing a non-employee a ride when it is necessary for their safety and/or considered public service.
6. No District vehicle shall be used in the conduct of internal Union business or internal Police Association business.

7. The use of District vehicles for personal lunch is as follows:
 - a. Employees who are individually assigned a vehicle on a for-commute basis may use that vehicle for securing lunch.
 - b. Employees using a pool vehicle, specialized vehicle or an individually assigned vehicle (but not for commute) may use that vehicle to secure lunch only when they are on official District business away from the normal work area.
8. Where scheduled vacation or absence is in excess of two weeks, any individually assigned vehicles will be parked at a secure District facility for the use of other employees.
9. Pool vehicles will not be left at un-secured public parking lots overnight.

B. Employee Eligibility Requirements

To be eligible to operate a District vehicle, an employee must agree to the following:

1. The employee must possess a valid California Driver's License and comply with all State vehicle code requirements, state and local laws and regulations. Employees are required to report any license revocations or restrictions imposed as a result of violations of state or federal law.

Violations are subject to discipline based on standards set forth in the Human Resources Policies and Procedures # 1 and # 15.

Violations of the Motor Vehicle Code, and parking violations, are not reimbursable expenses and are the responsibility of the vehicle driver. Mechanical defect violations are the responsibility of the District and must immediately be reported to their supervisor.
5. The employee will keep a current, signed Vehicle Use Policy form on file with the Human Resources Division that stipulates the employee's understanding of, and agreement to comply with, the District's vehicle use policy.

C. Assignment of District Vehicles

1. Administration:

- a. District vehicles will be designated as “Pool Vehicles”, “Individually Assigned Vehicles” or “Specialized Vehicles” as defined below.
- b. Each District vehicle will be assigned by the General Manager or by the Assistant General Manager of a Division to be the responsibility of a specific manager who will be held accountable for monitoring and enforcing compliance with District vehicle use policies, and ensuring proper maintenance and servicing is performed for vehicles.
- c. Vehicle assignments made by the General Manager or Assistant General Managers will be communicated to the District’s Maintenance Superintendent or Fleet Manager who will keep the list current and available to staff. The Maintenance Superintendent will update the list with vehicle purchases and retirements and make available the list to all managers for review no less than annually.
- d. All District vehicles will be clearly marked with the District insignia unless specifically exempted in writing by the General Manager.

2. Definitions and Designations

a. Pool Vehicles

- i. Vehicles may be assigned to pools operated by divisions, departments, parks or work units to provide transportation to employees on an as-needed basis.
- ii. Each pool will have a manager who is responsible for the vehicles and who is responsible for monitoring vehicle check out procedures, calls for service, and appropriateness of use. The manager may delegate check-in/check-out, recordkeeping, responsibility for scheduling maintenance and other tasks to subordinate employees.
- iii. Pool vehicles are intended to be available to employees during regular work hours and to be returned to the pool location at the end of the work day.
- iv. Pool vehicles will not be reserved for periods exceeding five or more consecutive days without prior written approval from the General Manager or Assistant General Manager of the division charged with the responsibility for the pool.

b. Individually Assigned Vehicles

District vehicles may be individually assigned only if it is determined to be in the best business interest of the District to do so. Individual assignment of a vehicle does not authorize that employee to commute in a District vehicle. Commute authorization is addressed in a separate section. Vehicles may be individually assigned only if one or more of the following conditions are met:

- i. The employee's job requires unrestricted and/or regular daily access to a vehicle to accomplish their assigned duties.
- ii. The employee's job requires the use of a specialized vehicle or the regular transport of specialized equipment to locations other than the assigned work location that cannot otherwise be economically accommodated.
- iii. The employee and supervisor demonstrate that the employee's job requires the use of a vehicle for business purposes on more than half of the working days of a month. This threshold is the minimum use that will be considered for individual assignment.
- iv. The finding by the General Manager that special circumstances exist that require individual assignment of a vehicle.

c. Specialized Vehicles

- i. Specialized vehicles are defined as "qualified non-personal use" vehicles by the IRS. These generally include all vehicles that are built or equipped for non-passenger uses including: delivery trucks and vans, construction and fire apparatus, vehicles equipped with tanks, lifts, cranes, generators, or similar specialized apparatus, all heavy trucks and any non-passenger vehicle that requires a specialized license or permit to operate. Marked police cars and fire vehicles equipped for emergency response are deemed to be specialized vehicles. Sedans, sport utility vehicles, pickups, and vans are not specialized vehicles.
- ii. The Maintenance Superintendent is responsible for determining the licensing and certification requirements necessary to operate specialized vehicles and communicating these requirements to managers and supervisors.

D. Commute

Employees may be authorized to commute (travel to and from home and the employee's assigned work location) in a District vehicle as authorized in writing by the General Manager, the responsible Assistant General Manager, or on a case by case basis by managers as described below.

1. General Conditions

- a. Employees authorized to commute will be held responsible for safely securing the District vehicle offsite and at the employee's overnight location, and will be responsible for adequately securing any equipment located in or on the vehicle. Firearms, computers, or any equipment that is potentially hazardous or of high value will not be left unattended or in vehicles overnight unless secured in a permanently affixed lock box.
- b. Employees authorized to commute, and who choose to do so, will be deemed to have received a taxable benefit per IRS requirements. The amount of this benefit, as determined under IRS rules, will be reported on the employee's annual W-2.

2. Regular Commute

Employees who are individually assigned a vehicle may be authorized to commute on a regular (daily) basis consistent with one or more of the following:

- a. The employee's job duties include emergency response calls from home or during off hours.
- b. The employee's job duties typically include unusual hours and varied schedules.
- c. The employee's job routinely requires multiple, work related stops prior to reporting to the assigned work location.
- d. The employee and supervisor demonstrate that allowing the employee to commute is more economical to the District than any other alternative.
- e. Job Classifications Authorized for Regular Commute include
 - i. General Manager
 - ii. Public Safety Division:
 - Assistant General Manager for Public Safety (Chief)
 - Police Captain
 - Police Sergeant (assigned to the Detective unit)
 - Police Lieutenant
 - Fire Chief
 - Assistant Fire Chief
 - Fire Captain
 - Industrial Fire Officer (fire season only, rotating on-call position)
 - Aquatic Manager
 - iii. Operations Division:
 - Assistant General Manager for Operations

- Chief, Park Operations
 - Chief, Maintenance and Skilled Trades
 - Chief, Interpretive and Recreation Services
- iv. Planning/Stewardship & Development Division:
- Construction Manager
 - Senior Construction Inspector
 - Construction Inspectors
- v. Land Acquisition Division
- Assistant General Manager for Land Acquisition
3. Occasional Commute
- a. Employees not specifically authorized for regular commute under the above section may travel to and from home in a District vehicle only when such travel involves official District business and they receive prior written authorization to do so. Authorization requested and/or received by e-mail is acceptable. Authorization is required from the first level of management in the employee's chain of command, or for management employees, by the next level of management up to the level of Assistant General Manager or General Manager. Assistant General Managers have standing authorization for commute use consistent with the performance of District business.
- b. Commute authorization will only be granted when the special assignment or attendance at a late night or early morning meeting would result in a higher benefit to the District by the employee returning or checking out the vehicle from the regular worksite.
4. Commute Value as a Taxable Benefit
- a. Commute by Regular Employees
- i. The IRS treats vehicle usage for commute purposes as taxable compensation. Under current IRS regulations, employees authorized by the District to commute in District vehicles will be assessed a \$3.00/day value (IRS Commuting Rule). This amount is considered compensation and will be reported to the IRS. This amount will be updated as IRS regulations change.
- ii. Employees using a vehicle for commute will mark a "\$" symbol on the designated line on their timecard to record each day that they travel to or from home in a District vehicle. Payroll will credit the employee with the \$3.00 amount for each day that the vehicle is used for commute to and from home marked and report this value to the IRS on the employee's annual W-2. Employees will be credited value for a commute whether or not they make stops on District business to or from home.

- iii. Time spent commuting shall not be compensated time unless specifically allowed by labor agreement or other employment regulation.
- b. Commute by Control Employees
- i. Control employees are defined by the IRS as those receiving wage compensation equal to or exceeding that of Federal Government Executive Level V. This salary level is set at \$133,900 in 2006 and will be adjusted to match the government rate in future years.
 - ii. Control employees assigned a vehicle for regular commute are currently prohibited from using the IRS "Commuting Rule" to calculate the benefit received.
 - iii. Control employees must be credited with receiving a non-cash fringe benefit consistent with IRS regulations unless operating a specialized vehicle.
 - iv. The taxable amount control employees receive on their W-2 will be the "lease value benefit" of their assigned vehicle and they will be responsible for any tax liability associated with receipt of this benefit. The amount of the taxable benefit will be calculated by the Finance Department based on the amount of commute use of the District provided vehicle. The annual reporting will be undertaken as follows:
 - (a) The Maintenance Superintendent will provide the current Kelly Blue Book value for each vehicle assigned to a Control Employee to the Finance Department every January 15.
 - (b) By January 15 of each year, every Control Employee will provide a signed memo to the Finance Department that will include the January 1 and year-end odometer reading for the vehicle, and the distance in miles from their home to work. If the employee fails to report personal miles (commute miles) to the Finance Department the entire value of the vehicle's annual usage is taxable to the employee.
 - (c) The Finance Department will calculate the ratio of commute miles as a percentage of the total miles the vehicle is driven for the entire year to determine the taxable portion.

- (d) Fuel provided by the District for the commute mileage will be credited as calculated at the IRS rate (currently 5.5 cents per mile).
 - (e) The Finance Department will use the reported information to calculate the benefit amount and report it on the employee's W-2 statement. The Finance Department may pro-rate this annual cost if a vehicle is assigned for less than a full year.
 - v. The Finance Department will determine at the beginning of each year which employees will be considered Control Employees for the purposes of this policy. Finance will notify each such employee who is assigned a vehicle for regular commute of any required actions deemed necessary to comply with IRS regulations by January 15 of that year, or reasonably thereafter should IRS regulations change during the year.
- c. Commute by Public Safety Employees
 - i. Public Safety personnel who are assigned specialized vehicles or marked, emergency response police and fire vehicles, or unmarked law enforcement vehicles specifically approved by the General Manager, who are authorized for commute and who do not otherwise use the vehicle for personal use are considered by the IRS to be using the vehicle for business purposes and are therefore exempt from reporting requirements. These employees will not be credited with the commute cost. Such vehicles, excepting command, detective or undercover vehicles, must be marked with the District insignia to comply with this exemption.

F. Management Responsibilities

1. General Manger: The General Manager holds the overall responsibility for administration of this policy including delegation of assignments to staff, authorizing updates, amendments or exceptions as necessary to serve the best interests of the District.

5. Finance Department staff will track and calculate the commute benefit for control and non-control employees and report the benefit on the employee's annual W-2 statement. The Internal Auditor will be assigned to audit an appropriate sample of the vehicle logs, sign-out sheets, commute authorizations, W-2's and other documentation sufficient to assess compliance with this policy.
6. Employees will be held responsible for accurately reporting the approved commute use of a District vehicle, and retaining records adequate to verify personal compliance with this policy.

- 2. The Public Safety Communications Manager or their designee will be responsible for managing cell phone contracts, negotiating with cell phone providers, selecting the types(s) of cell phones and plans that will be made available to employees. The types of plans and phones will be negotiated to obtain the most cost-effective option for phones and plans that meet the District's business needs.
- 3. The Public Safety Communications Manager will provide a standard menu to Division heads of approved cell phone providers, phones and plans.

 - b) The dates available for the pay-out shall be the last first full pay period in September and the first full pay period in December. This provision shall have no effect on an employee's right to pay-out all his or her accrued vacation at separation or retirement from Park District employment.
 - c) As part of the Park District's open enrollment packet each year, employees will receive a copy of the Irrevocable Vacation Pay-Out Election Form and a reminder of the deadline set for the last business day before December 31st.
 - d) As an exception to the irrevocable election requirement, in the event of an unforeseen financial emergency where (1) the employee can demonstrate that the employee has a real and immediate unforeseen emergency caused by an event beyond the employee's control, (2) it would result in a serious financial hardship if the cash payment were not made, (3) the amount of the cash payment is limited to the amount necessary to meet the emergency and (4) the Park District will exercise its discretion to determine whether an emergency exists and the extent of the financial need.
2. Cash payment of unused vacation shall be made upon retirement or termination.
3. Vacation credits are paid at the employee's then current salary rate.

G. Work During Vacation - Confidential Employees

1. In emergencies, confidential employees on vacation may be contacted to come to

work. In the event an employee works, the regular pay will apply and the vacation day will be canceled and rescheduled at a later date.

2. Should the work day be a normal day off, the work will be paid at one and one-half times the regular rate and vacation days will not be affected.
- H. **Sickness During Vacation:** Should an employee become ill during vacation, the employee may, upon return from vacation, convert the days of illness from vacation use to sick leave use. Such conversion will require the presentation of a Doctor's notice verifying the illness and the duration of the illness.
- I. **Initial Benefit Hiring Credit:** The General Manager may negotiate hiring credit for up to 12 days of vacation for Management and Confidential employees.
- J. **Management Employees Extra Hours** (note: this provision applies only to employees in the District's General Employees Retirement Plan).
1. Management employees will record all extra hours worked in excess of the normal schedule on their time cards. Extra hours will be earned on an hour-for-hour basis up to a maximum of 40 hours in a work week. Management employees may not accrue more than 520 extra hours during the year.
 2. On January 1, Management employees will be credited with 40 extra hours of vacation leave as compensation for extra hours worked. Management

employees will be credited up to an additional 40 hours of vacation leave for all extra hours worked between 130 and 170 hours during the preceding year. Management employees may choose to have any of the extra hours credited towards years of service for retirement purposes in lieu of vacation leave.

3. Management employees hired or promoted into a Management position during the year will be credited with a pro-rated number of extra vacation hours at the time of hire or promotion.
 4. For any Management employee with 20 years or more of District service credit, and at least 1,800 extra hours accrued at the time of retirement, the employee will receive a cash payout for 80 of those hours upon retirement.
 5. All extra hours accrued in accordance with this policy that are not converted to vacation leave will be credited towards years of service for the purpose of retirement calculations.
- K. Management Administrative Leave Policy (note: this provision applies only to those employees in the CalPERS retirement plan). For Management Employees under CalPERS Retirement Plan, see Resolution No. 2000-12-256 (Section 26, Appendix E).

SECTION 11: SICK LEAVE

11.01 GENERAL

- A. Credits: Sick leave is accrued on the basis of one day for each month the employee is paid by the District more than one-half the work days of the month. Accumulation is unlimited.
- B. Use: Sick leave may be used to prevent loss of pay when absent for:
 - 1. Personal illness or injury.
 - 2. Quarantine in the home, or when upon the advice of a physician it appears that the presence of an employee would jeopardize the health of the fellow employees.
 - 3. Illness of the immediate family, defined as father, mother, brother, sister, son, daughter, wife, husband, domestic partner (providing that their domestic partner is registered as their domestic partner with the State of California), parent-in-law, or any relative or ward.
 - 4. Visits to doctors, dentists, or oculists when appointments are not reasonably available during non-working hours.
- C. Verification: Sick leave absence in excess of three consecutive work days must be verified in writing by the employee's doctor. The head of the Department may accept the employee's signed statement concerning the nature of the illness in cases of sick leave absence of three days or less.
- D. Integration: Sick leave will be integrated with State Disability Insurance.
- E. Notification: Employees shall notify their immediate supervisor, the Secretary of their Department, or the Public Safety Dispatcher, in that order, of their inability to report to work due to illness or injury prior to their regularly scheduled work period.
- F. Subrogation: By using sick leave, each employee agrees that the District shall be subrogated, to the extent of wages paid such employee for sick leave credits, to any claim such employee may have against third parties for loss of wages. Similarly the District shall be subrogated to claims against third parties by an employee who is paid during periods of disability resulting from job-related injuries, to the extent of payments by the District pursuant to the provisions of Workers' Compensation. To the extent the District is compensated under this section, sick leave credits shall be restored to the employee.
- G. Benefit Eligibility
 - 1. Sick leave shall apply only to Regular employees.
 - 2. Probationary Regular employees shall accumulate and be entitled to use sick leave credits during their probationary period.

H. Payment on Retirement or Termination

1. Payment of one-third of accrued but unused sick leave up to a maximum of 45 paid days may be made on retirement or upon voluntary termination of employment after employment by the District for an aggregate of ten years.
2. For an employee who leaves the District by retirement, unused sick leave remaining from the application of Section H (1) above, shall be added to credited months of service for computing retirement benefits.

I. Initial Hiring Credit: The General Manager may negotiate initial hiring credit of up to 12 days Sick Leave for Managerial and Confidential employees.

11.02 MANAGEMENT/CONFIDENTIAL SICK LEAVE BANK

Management and Confidential employees may contribute accrued sick leave to a Management/Confidential Sick Leave Bank. The Sick Leave Bank will be available for use by Management and Confidential employees to cover periods of protracted illness when their own sick leave, vacation, comp time or Long Term Disability plan does not cover such illness.

A. Contribution: Upon written request by an employee, up to ten days of his/her unused sick leave credit may be contributed to the Sick Leave Bank each calendar year.

B. Use of Sick Leave Bank

1. A Committee of the Human Resources Manager and another Manager and Confidential employee as determined by the Human Resources Manager will consider requests for Sick Leave Bank use. Criteria controlling consideration of any request for time from the Sick Leave Bank are:
 - a. No employee shall be eligible until the employee has exhausted all accrued sick leave, vacation and/or comp time.
 - b. The nature of the illness or injury and the medical prognosis.
 - c. The financial need of the employee.
 - d. The current balance of credits in the Sick Leave Bank.
 - e. The current or pending demand on the Sick Leave Bank.
 - f. The length of service of the employee.
 - g. The employee's history of sick leave use.
2. A majority decision of the Committee shall be conclusive as to application for Sick Leave Bank usage. In no event shall an employee be denied Sick Leave Bank benefits in an amount equal to that contributed by the employee, provided the Sick Leave Bank has enough hours. It will not be necessary for an employee to have exhausted accumulated annual leave prior to request and receipt of the employee's contribution to the bank.

SECTION 12: LEAVES OF ABSENCE

12.01 LEAVES

A. Maternity Leave

1. Eligibility: Any District employee disabled by pregnancy may request a leave of absence without pay. For Regular employees, that leave cannot exceed 12 months; for other employees, the leave cannot exceed four months. Return to the same title and pay rate is guaranteed for sanctioned maternity leaves; however, return to the job location or Division is not guaranteed.
2. Request: A written request must be received by Human Resources on or before the end of the sixth month of pregnancy. The request must include a definite requested date for beginning and ending the leave. A medical certificate from a doctor must accompany the request specifying:
 - a. The expected delivery date.
 - b. The latest date in the pregnancy where the employee can be assured of being safely able to perform all job duties.
 - c. The earliest date after confinement where the employee can be assured of being safely able to resume all job duties.
3. Limitation: An employee will not be allowed to work beyond the seventh month of pregnancy or to return to work without a doctor's certification.
4. Health Insurance Premiums on Maternity Leaves: For employees covered under District health insurance, the District will reimburse a total dollar amount not to exceed six times the employee's monthly medical premium cost, paid by an employee who is granted a maternity leave, provided such employee returns to work with the District at the end of the leave.

B. Paternity Leave: A male regular employee may request a continuous paternity leave without pay for a period not to exceed 60 days.

C. Civil Leave

1. Regular employees shall be given leave of absence with pay for working time lost when called to serve on Petit (not Grand) jury duty or as a subpoenaed witness. Such employees shall be paid at their regular rate for all time lost up to their normal scheduled hours. In consideration of receiving their regular pay, employees shall assign to the District jury or witness fees, excluding transportation reimbursement, received during the same period.
2. Seasonal and Temporary employees will be excused from work, without pay, for jury duty.

D. Family Death Leave

1. A regular employee may be granted leave with pay for a death in the employee's family. For the purposes of this section, employee's family is determined as including mother, father, spouse, anyone living in a spousal relationship, sister, brother, son, daughter, grandparent, legal ward, mother-in-law, and father-in-law.
2. For relatives residing within 500 miles of the employee's home, up to three days may be granted. When the employee is required to travel over 500 miles from his/her home in connection with the death of the family member, up to five days may be granted.
3. An employee may use up to 10 days sick leave in addition to Family Death Leave.

E. Military Leave: Leave with pay shall be approved for up to 30 days per calendar year for a regular employee under orders for military training duty. Written request for such leave must be made to the head of the Department and the Human Resources Manager and must include a copy of the orders. In consideration of receiving regular pay, employees shall assign to the District remuneration, excluding transportation fees, received for military training during the same period, except for such pay which is in excess of their regular District pay. The District's policy on War Time is stated in the Human Resources Policies and Procedures #12.

F. Education Leave: A regular employee, desiring to return to school on a full-time basis to take a course of study which will directly increase employee's knowledge and skills as a District employee, may apply in writing to the head of the Department for leave without pay. Such requests must be approved by employee's head of the Department and the Human Resources Manager. No more than 4% of the regular personnel of a Department may be on educational leave during a given school year with a minimum of one person permitted. If more than 4% apply, selection shall be made on the basis of length of service. Such leaves shall be for a period of up to one year. An employee taking such a leave will not again be eligible for such leave for a period of three years.

G. Special Leave: An employee may be granted leave without pay for a period of up to 90 days for emergency purposes if it is in the best interest of the District and the employee to do so. A written request must be submitted to the employee's Department Head and the Human Resources Manager for approval.

H. Administrative Leave: The General Manager may place an employee on Administrative Leave for a period not to exceed 30 days. The General Manager may authorize an additional 30 days if determined necessary. Administrative Leave may be leave without pay or benefits, or leave with full pay and benefits.

I. Family Care and Medical Leave: The District's policy on Family Care and Medical Leave is stated in the Human Resources Policies and Procedures # 11.

J. Paid Family Leave: The District's policy on Paid Family Leave is stated in the Human Resources Policies and Procedures # 14.

K. Fringe Benefit Coverage During Leaves

1. Benefit coverage shall continue with no change during the first 30 days of any leave except unpaid Administrative Leave. After 30 calendar days, benefit coverage shall be suspended unless the employee chooses to reimburse the District for the costs of the benefits retained. The District will resume premium payments effective the first of the month following return to pay status.
2. Upon return to paid status after leaves in excess of 30 days and when benefits have been suspended, the employee will be eligible the first day of the month following return to work; however, the employee will be treated as a newly- eligible employee with respect to application of deductibles, maximums and waiting periods.
3. For retirement plan purposes, leave time over 30 calendar days shall not be credited for vesting nor shall such leave time be credited for benefit calculation purposes.
4. Sick leave and vacation accrual will not continue during any month in which one-half of the scheduled work days are not worked. For vacation purposes, months on leave shall not be used in calculating continuous service accrual rate increases.

- L. Return from Leave: Employees returning from leave are guaranteed return to the same classification title. Except for job injury leave, there is no guarantee the assignment will be to the identical position or location vacated.

12.02 VOTING TIME (CA ELECTION CODE, SECTION 14350)

If a voter does not have sufficient time outside of working hours to vote at a statewide election, the voter may, without loss of pay, take off enough working time which, when added to the voting time available outside of working hours, will enable the voter to vote.

No more than two hours of the time off for voting shall be with pay. The time off for voting shall be only at the beginning or end of the regular working shift, whichever allows the most free time to vote and the least time off the regular working shift, unless otherwise mutually agreed.

If the employee, on the third working day prior to the day of election, knows or has reason to believe that time off will be necessary to be able to vote on election day, the employee shall give at least two working days' notice that time off is desired, in accordance with the provisions of this section.

SECTION 13: EXPENSE REIMBURSEMENT

13.01 BUSINESS MEETING ATTENDANCE AND TRAVEL

The Board of Directors recognizes the benefit in training and attendance at meetings and functions which advance professional knowledge and provide opportunities to exchange information related to park and recreation operations and issues. Authorization for travel and expense reimbursement shall be limited to conferences, meetings and other functions from which the Park District derives a specific benefit through attendance. Only that travel/attendance which serves a District purpose and is deemed necessary and/or advantageous to the East Bay Regional Park District shall be approved and reimbursed. Travel shall be by the means most economical to the District. Employees are expected to exercise sound judgment in the incurring and submittal of travel expenses, in keeping with the standards and proprieties of a visible and accountable public agency.

A. Policy

Assistant General Managers (AGMs) shall authorize in-state attendance, travel and reimbursement of all normal and necessary expenses incurred by employees, in the course of official District business according to the following guidelines. The General Manager shall authorize in-state travel by AGMs, Chief Financial Officer/Controller and the Clerk of the Board. In areas not specifically covered, the General Manager's decision shall govern.

1. Travel by Air. If travel is by air, coach or economy fares are to be used. Travel by private automobile is permitted in lieu of flying; however, in no case shall the expense exceed the round-trip cost by air.
2. Mileage Allowance. Private vehicle usage will be reimbursed at a rate equal to the current rate set by the Internal Revenue Service for mileage deduction.
3. Park District Vehicles. Employees are encouraged to use District-owned vehicles in the performance of official business or attendance at approved functions to the extent such vehicles are available and suitable for use. The use of District vehicles shall be limited to official District business and travel reasonably related thereto. Transportation of persons other than employees is authorized only in situations where it relates to District business, and then only when alternative arrangements are impracticable.
4. Meals. Reimbursement is allowable for meals consumed by an employee attending a meeting or conference on behalf of the District in the following amounts, which include tax and gratuity up to these rates or actual expenses, whichever is less: \$12 for breakfast, \$17 for lunch, and \$32 for dinner. The meal reimbursement amounts set forth above may be adjusted annually effective on January 1 to reflect any changes in the most current available rates specified by IRS through the U.S. General Services Administration. Per Union Contract, members of the Police Association will be reimbursed for meals on a per diem basis.
5. Lodging. Reimbursement is allowable for lodging expenses associated with attendance at out-of-region conferences or meetings provided the destination is beyond sixty (60) miles from Park District Headquarters. Overnight lodging

expenses associated with meeting attendance within the Bay Area region may be authorized if the overnight stay is justified based on early morning or late hour attendance requirements. Such overnight stay shall be preauthorized by the General Manager or appropriate AGM only if extraordinary circumstances warrant approval (see #9 Overnight Travel).

6. Telephone Charges. Only necessary business-related telephone calls incurred by an employee on authorized travel may be reimbursed.
7. Alcoholic Beverages. No reimbursement will be allowed for alcoholic beverages.
8. Out-of-State Travel.
 - a. All out-of-state and out-of-country travel conducted by the Board of Directors, General Manager, Chief Financial Officer/Controller and Clerk of the Board requires prior Board of Directors approval.
 - b. All other out-of-state and out-of-country travel conducted by District Staff requires prior General Manager written approval prior to incurring expenses or travel taking place.
 - c. Transportation costs for travel outside of the United States and Canada by the Board of Directors will be borne at the cost of the Director.
9. Overnight Travel. Assistant General Managers shall approve employee overnight travel in advance of expenses being incurred, using the Overnight Travel form. Overnight travel conducted by AGMs, CFO/Controller, and Clerk of the Board shall be approved by the General Manager or his/her designee (see Finance Procedure 8.10).

B. Authorization and Approval of Requests and Expenses

1. Requests for authorization to attend conferences and/or meetings must be submitted in advance. The appropriate AGM shall review and authorize all employee requests prior to incurring expenses, travel or attendance. The General Manager shall review and authorize all requests by AGMs, Chief Financial Officer/Controller and the Clerk of the Board. Written justification must be provided in advance, where possible, for any unusual or extraordinary expenses.
2. Expenses will be paid by the Park District directly to the hotel, airline, conference or other service provider whenever possible. Such expenses shall be submitted using the standard District purchase requisition process. An employee will otherwise submit receipts and expense reports to the Finance Department for processing within thirty (30) days after travel. Receipts are required to be filed for all expenses claimed.
3. The General Manager shall review and approve expense reports submitted by AGMs, Chief Financial Officer/Controller and Clerk of the Board. AGMs shall review and approve expense reports submitted by all other employees.

4. Expenses incurred at the option of the employee such as room service charges, personal phone calls, non-business cancellations that are not due to an emergency or movie charges will not be reimbursed.
- C. Public Safety Management Staff will be covered under the provisions of the Police Association Memorandum of Understanding.

13.02 CONFERENCE/ANNUAL MEETING ATTENDANCE

- A. Participation: District employees may be allowed to attend conferences or annual meetings subject to the following guidelines:
1. Cost of meals, lodging, travel and related expenses must be budgeted for within the sponsoring Department or paid personally. Tuition or registration costs may be covered under the Training Policy.
 2. Participation is limited to Management personnel except as provided in Section D of this Policy.
 3. No more than five days per year may be used for such attendance.
 4. The benefit to the District is commensurate with the expended time and a report on the conference or meeting is made to the management staff.
 5. Cost to the District is limited to the continuation of the employee's salary and expenses approved in the employee's departmental budget.
- B. Approval: The General Manager may approve extension or revision of any of the limitations in order to accommodate unusual circumstances; e.g., when an employee is serving as an officer or board member for a professional, job-related organization.
- C. Employee Time: There shall be no restriction on an employee's participation in conferences or annual meetings on their own time, provided such participation does not impair efficiency in performance of, nor is incompatible with, District duties. All costs for such participation shall be borne by the employee.
- D. Non-Management Employees: Employees who are members of professional associations or societies may be allowed to attend conferences or annual meetings subject to the guidelines under Section A above.

13.03 MOVING EXPENSES

As a component of a job offer the General Manager may negotiate the payment of moving expenses for newly hired Management or Confidential employees.

SECTION 14: UNIFORMS

A. Providing Uniforms

1. General: Identifying uniforms will be provided at District expense to employees who come in contact with park visitors on a regular basis or where an employee wearing a uniform in public will provide a benefit to the District. Employees in such positions will wear a presentable uniform at appropriate times. Uniforms shall not be worn off duty other than going to or from work.
2. Public Safety: The method of providing for the uniform provision described in Section A shall be different for Public Safety personnel in the specific positions which are covered by this section of the Administrative Manual:
 - a. Categories of Positions: "Sworn Regular Positions": Assistant General Manager-Public Safety, Police Lieutenant, Police Captain, Fire Chief and Assistant Fire Chief. "Seasonal Police Officer". "Non-Sworn Position": Public Safety Student Aide.
 - b. Employee Responsible for Providing Uniform: "Sworn Regular Positions" shall be paid a uniform in the same manner a uniform allowance is provided for sworn members of the Police Association, per the terms of section 8.3 of the Memorandum of Understanding.
 - c. District Provided Public Safety Uniform: In the event that a "Seasonal Police Officer" serves as a Reserve Officer, the District may provide an initial uniform. In addition, a "Seasonal Police Officer" shall be paid an annual lump sum amount on the second paycheck of June of \$300. The District maintains a stock of authorized uniforms for employees serving as Non-Sworn Public Safety Student Aides. The employee shall be responsible for maintaining the assigned garment, excepting normal wear and tear; and shall be paid semi-annual amounts of \$87.50 in accordance with District procedures used for the payment of other uniform allowances.
 - d. Payment Procedures: The Chief Financial Officer/Controller shall establish procedures to facilitate payments under this section including all reporting as may be required by benefit plans and tax laws.

B. Public Contact Positions

1. Managers: Unit Managers, Public Safety Command Officers, appropriate Chiefs, appropriate Specialists, appropriate supervisors and superintendents, and any other classification approved by the respective Assistant General Manager.
2. Seasonal: Lifeguards, Recreation Leaders, Interpretive Student Aides, Gate Attendants and Student Laborers.

3. Temporary: When an eligible employee is hired for more than two weeks, a uniform issue will be made. Such uniform issue will be returned at the completion of the temporary assignment.
 4. Miscellaneous: Uniform requirements will be included in the job description (e.g., Student Aides).
- C. Type of Uniform: The District will prescribe the specific uniform items to be worn by public contact employees.

The District will provide newly hired Student Aides with:

1. Two pair of pants
2. Two shirts
3. Two name tags
4. Shoulder patches
5. Belt and buckle
6. Standard Central Stores issued jacket
7. Two pairs of shorts
8. One green turtleneck
9. District T-shirt
10. District sweatshirt

The uniform will be returned to the District upon termination of employment. Returning employees will receive an annual allowance of \$150.

D. Issue and Maintenance

1. The District will issue the prescribed uniform items or provide an appropriate allowance for purchase of the uniform. If a temporary Naturalist is to be hired for a period in excess of 60 days, the standard Local 2428 Naturalist uniform allowance and policy will apply. Temporary Park Maintenance and Operations personnel will receive the same allocation as a 6 month permanent employee. Recreation Leaders will receive \$100 annually for uniforms. These funds will be administered by the Recreation Supervisor.
2. Uniforms need not be spotless, in perfect condition, nor absolutely without wrinkles; however, uniforms must be neat and presentable to reflect a business-like approach in performing public duties. Employees are responsible for affixing authorized District patches, laundering and exercising care to preserve their uniforms.
3. Replacement of District-provided uniform items beyond the annual allocation will be the employee's responsibility except for damaged property which is approved for replacement.
4. Public Safety Management Staff will be covered under the provisions of the Police Association Memorandum of Understanding.

SECTION 15: TRAINING

- A. Training Policy: The District encourages participation by all regular employees in job and career-related training programs with the objectives of strengthening job skills and enhancing career advancement.
- B. Guiding Principle: All training is to be regarded as secondary to the primary responsibility of getting District work done. The determination of whether a particular class is Job Required, Job Related, Career Related, or unrelated to District interests and the corollary determination of whether any given employee can be spared from the job for training are the responsibility of the Human Resources Division and the supervisorial hierarchy of that employee.
- C. Definitions
 - 1. In-District Training (Group Training) is specific training set up by the District for groups of District employees. Usually this training is not readily available out-of-house because it is tailored to District policy and procedure or there are economies of scale to be gained by offering the training in-house. Attendance at such training is generally by District request and is fully sponsored on job time and with no direct cost to the attending employee.
 - 2. Out-of-District Training (Individual Training) is training which is offered by area educational institutions rather than being set up by the District itself. There are four kinds of Out-of-District Training:
 - a. Job Required Training: Job Required Training is defined as essential training (e.g., mandated by law or the District or vital to fulfill changed job requirements) for performance of an employee's current job. Typically this takes the form of a specifically related daytime seminar.
 - b. Job Related Training: Job Related Training is defined as training which would upgrade or strengthen an employee's knowledge or skills in his/her current position. Typically this takes the form of a related daytime seminar or conference the District suggests the employee attend or the employee indicates a desire to attend.
 - c. Career Related Training: Career Related Training is defined as training necessary to meet the minimum qualifications of a promotional position in existence at the District realistically sought by the employee and for which that employee has filed a Career Plan approved by Human Resources. Usually this takes the form of night time college classes.
 - d. POST Training: POST Training is police-specific training either required or recommended by the State. Approvals, sponsorship, and record keeping for POST training are the responsibility of Public Safety.
- D. District Sponsorship for Local Out-of-District Training: The degree of District sponsorship is based upon the degree of relevancy the training has with respect to the District.

1. Job Required Training is sponsored to its full cost, including both direct and indirect costs, and is generally on District time. Indirect costs are paid through the employee's Departmental budget and direct costs through the Human Resources training budget. There is no specified dollar limit to such training.
 2. Job Related Training is sponsored to a maximum of \$800/year and, if not otherwise attainable, may be attended on District time only during those hours which overlap onto the employee's regular work schedule. The direct costs (tuition and books only) of a local job-related training are reimbursed through the Human Resources training budget. Indirect costs (meals, parking and travel) for locally-based job related training are at employee expense. For non-local (outside the nine Bay area counties) job-related training, the indirect costs may be paid by the employee or be reimbursed from the employee's Departmental budget if:
 - a. The Department's Assistant General Manager wishes to support the request in this way, and
 - b. The funds are available within the respective Departmental meals and travel budget, and
 - c. Such expenses are identified as non-local job related training expenses and reported to Human Resources, and
 - d. Comparable local training is not available.

In instances where the indirect costs are reimbursed by the Department, the indirect costs will be counted towards the individual employee's \$800 annual limit. If direct and indirect costs exceed \$800 for the year the training will not be approved unless the employee is willing to pay any excess over \$800.
 3. Career Related Training is sponsored for direct costs (tuition and books only) up to \$800/year. Such course work should be chosen not to interfere with the work schedule but, if necessary and approved, a maximum of six hours/week off the job may be sponsored by the District. An employee may combine their \$800 of Job Related Training with their \$800 Career Related Training and use the total of \$1,600 for Career Related Training.
 4. All forms of Out-of-District training that result in credit must receive such credit (must pass) in order to be entitled to any reimbursement.
- E. Guiding Principle on Amount of Training Time: Since various forms of training result in time away from the job, it is necessary that there be a guiding principle regarding how much training is considered appropriate.
1. In general, the total of all forms of training that take an employee away from regular duties should approximate one week per year (40 hours). While this is not a strict requirement or limit, training totals much higher should be reviewed closely by the supervisory hierarchy.

2. Training requests which total over 100 hours in a year are reported to the relevant Department's Assistant General Manager by the Human Resources Division, except for Public Safety which maintains its own records.

F. Benefit Eligibility

1. The training benefit applies to all Regular employees. Time and dollar limits are to be pro-rated for Part-time Regular employees and for six month and nine month Regular employees.
2. Training benefits do not apply for any training that starts or ends during a leave of absence.
3. Direct and indirect costs for approved job related and career related training completed by six and nine month regular employees will be reimbursed only when the employee is on regular work status.
4. Training benefits may be denied for training undertaken without the necessary District approvals.
5. Training benefits not used in one calendar year may not be transferred to a different calendar year.

- G. Out of State Training: Training requests that require out-of-state travel must be approved, in advance, by the Human Resources Division and the supervisorial hierarchy before going to the General Manager for approval.

SECTION 16: SAFETY REGULATIONS AND EQUIPMENT

16.01 SAFETY

- A. Policy: The safety policy adopted by the Board of Directors is: To protect the people using the parks of the East Bay Regional Park District, to improve the operating efficiency of the District, and to protect its assets, the Board of Directors hereby states that safety is a matter of primary importance and is to be given commensurate consideration; and it is the responsibility of all personnel of the East Bay Regional Park District to see that safe working conditions and safety rules and regulations are applied with practical efficiency to the total operation of the East Bay Regional Parks.
- B. Program Objectives
 - 1. The primary objective of the District safety program is to prevent accidents thereby protecting the lives, well-being and property of District personnel and park visitors.
 - 2. The secondary objective of the program is to promote emergency preparedness so that accidents, and the emergencies they create, will be handled effectively by all District personnel.
- C. Limitations: Although it is recognized that all safety programs are subject to human error and that there are limitations on time, money and energy, it is also recognized that SAFETY IS GOOD BUSINESS and NO EMPLOYEE SHALL ATTEMPT A JOB OR JOB-RELATED ACTIVITY WHICH HE OR SHE BELIEVES MAY BE LIKELY TO CAUSE AN INJURY OR PROPERTY DAMAGE.
- D. Safety Program: The safety program is defined in the Safety Manual.

Additional specialized items such as rain gear, hip boots, etc., shall be provided by the employee's supervisor on an "as needed" basis.
- B. Safety Glasses: Upon due application and approval of the supervisor and Risk Manager, a Regular employee may be reimbursed for the purchase of safety glasses (which may be either prescription or "plano") in an amount not to exceed \$120 (except that the District shall pay the full cost of plano safety glasses). Examination for prescription shall be done on the employee's time or be covered by vacation, comp time or sick leave. Reimbursement is not available for fees for eye examinations or prescriptions.
- C. Wildland Firefighter Boots
 - 1. The District will provide a pair of boots for regular and industrial firefighters. Each firefighter will wear these boots while on duty as a firefighter, except when other specialized boots are required.

2. Specifications for boots include:
 - a. Boots shall provide firm ankle support for wildland firefighting.
 - b. Boots shall have a minimum 6" high from the bottom of the heel to the top of the boot.
 - c. Boots shall be "Heavy-duty, lace-type work boots".
 - d. Zippers, in lieu of laces, are not acceptable.
 - e. Boots shall be black with leather uppers.
 - f. Boots shall have "Vibram" or equivalent non-slip and a steel shank (steel toes are optional).
 - g. Boots shall have a polished or oiled finish and may be died black to conform to the policy.
3. The boot allowance will be determined by the Fire Department Operations section and will be reviewed annually at the beginning of February of each year.

16.08 ASSISTING EMPLOYEES WITH LIFE THREATENING ILLNESSES

The District recognizes that employees with life-threatening illnesses (including but not limited to cancer, heart disease and AIDS) may wish to continue to engage in as many of their normal pursuits as the condition allows, including work. Therefore, the District is committed to minimizing the social and work consequences related to maintaining employment for employees with such conditions. It is District policy to allow employees with life-threatening illnesses who are deemed medically fit to work, and who are able to meet acceptable performance standards, to continue employment by providing reasonable work accommodation for them while maintaining a safe work environment for co-workers and other affected employees. The District recognizes that continued employment for an employee with a life-threatening illness may sometimes be therapeutically important in the remission or recovery process or may help to prolong the employee's life.

Consistent with this policy, the following guidelines shall be used by managers and supervisors in dealing with life-threatening illness employment issues.

- A. Confidentiality: Employee's health conditions are confidential. As with all other illnesses, employees may be required to provide a physician's certification regarding ability to work,

work restrictions, amount of time needed for leave or any other information related to the illness.

2. Employee Assistance Programs are available to employees with life-threatening illnesses, and assistance from established community support groups should be sought.
- E. District Directed Physical: If the supervisor of an employee with a life-threatening illness believes that the employee is unable to perform (or perform safely) the duties of the position, the District may direct the employee to undergo a medical examination by the District medical clinic. The results of the examination will be used to guide the Human Resources Division in decisions affecting the employee.
- F. Co-workers
1. If co-workers become aware of an employee's health problem, the supervisor should be sensitive and responsive to the co-workers' concerns. If in-house educational efforts do not sufficiently respond to the co-workers' concerns, the District will offer the option to seek appropriate employee assistance programs or educational programs to allay the co-workers' concerns.
 2. Special consideration beyond normal voluntary transfer requests will not be given to employees who feel threatened by a co-worker's life-threatening illness.

SECTION 19: PERSONNEL FILES

- A. Confidentiality: Employees' Personnel files shall be held in strict confidence by the District and shall be subject to inspection only by officials of the District acting on official District business; the employee; or in accordance with the employee's written instructions (which shall be a part of the file), or as otherwise required by law. It shall be the policy of the District to notify employees of all adverse material (specifically including any material that would adversely affect their performance evaluation or promotability) placed in their Personnel files and to discuss such material upon written request.
- B. Release: In the event that a business inquirer contacts any District supervisor to obtain job reference information on any former or current District employee, the information given out over the phone shall be limited to the dates of employment. If business inquirers ask for other information, they should be instructed to obtain a signed letter from the employee authorizing the opening of the employee's Personnel file. Upon receipt of this letter by the Human Resources, the Personnel file will be made available to the business inquirer.
- C. Home Contact: Employees' home telephone numbers and addresses are only to be given out for justifiable District business.

SECTION 20: DISCIPLINE

- A. Actions: Disciplinary actions may include the following:
1. Oral reprimand
 2. Written reprimand
 3. Suspension
 4. Demotion (which may include reduction in pay)
 5. Discharge
- B. Cause: Employees may be disciplined for just cause, including without limitation, the following:
1. Fraud in securing appointment.
 2. Incompetency.
 3. Inefficiency.
 4. Inexcusable neglect of duty.
 5. Insubordination.
 6. Dishonesty.
 7. Drunkenness.
 8. Inexcusable absence without leave. An employee absent for three consecutive scheduled work days without notification of valid reasons to the District, and has no legitimate reasons for not notifying the District for this absence, may be considered as having resigned.
 9. Conviction for the use of, or addiction to the use of narcotics or habit-forming drugs or being under the influence of alcohol or narcotics during working hours.
 10. Conviction of a felony or conviction of a misdemeanor involving moral turpitude. A plea or verdict of guilty, or a conviction following a plea of nolo contendere, to a charge of a felony or any offense involving moral turpitude is deemed to be a conviction within the meaning of this section.

18. Misrepresenting oneself as a spokesperson for the District that is of such a nature as to bring discredit to the District.
19. Receiving or accepting a gift of any material value from any individual, firm or corporation doing business with the District, or failing promptly to report the offer of any such gift to the General Manager, if acceptance of such a gift is likely to cause any person to reasonably believe that the gift was given for the purposes of improperly influencing the employee in the performance of any official duty.

For example: An employee may accept inexpensive advertising items bearing the name of the firm, such as pens, pencils, paperweights, or calendars. No employee may accept from a third party payment for lodging while on District business except where a technical society or similar organization pays an employee's expenses in connection with the employee's attendance at a District business-related conference or planning session.

The principle for an employee to follow is to avoid any implied, assumed or direct obligation to show favoritism or more friendliness to one person or firm than to others. An employee must avoid accepting gifts through third parties or accepting gifts from anyone who is likely to do business in the future with the District. If there is any doubt as to the propriety of accepting a gift, the employee should decide against acceptance.

- C. Notice: In all cases of disciplinary action, except oral reprimand and termination during the probationary period, the District will give prompt notice thereof in writing to the employee.
- D. Reprimand: Should it be necessary to reprimand an employee, it shall be done whenever practical, in a manner that is consistent with good employee relation principles.

SECTION 21: GRIEVANCE PROCEDURE

- A. **Grievance:** A grievance is any dispute, related to the matters of this Personnel Administrative Manual, between the District and an employee or employees.
- B. **Time Limits:** It is the intent of the District to anticipate and diminish causes of grievances, to settle any which arise at the lowest practical level of supervision, fairly and as promptly as possible. Therefore, there should be time limits between the initiation of the grievance and its occurrence, between steps of the grievance procedure, and the time in which each answer must be given. The procedure shall be the exclusive method of pursuing grievances and a condition precedent to initiation of legal proceedings. Any grievance not initiated or pursued by the aggrieved employee, within these time limits, will be considered settled on the basis of the last timely answer by the District unless the time is extended by agreement of both parties.
- C. **Records:** At each step of the grievance procedure, the District shall make available any record relied upon to sustain the action which gave rise to the grievance and any other information necessary and pertinent to the processing of the grievance, except for any material which, in the District's discretion, must, in the public interest, be kept confidential or which is intimate and private to the grieving employee.
- D. **Representation:** Employees who wish to be represented shall be allowed such representation which shall consist of not more than two representatives.
- E. **Steps:** Grievances will be processed in the following manner and within the stated time limits:
 - 1. The aggrieved employee or group of employees shall orally present the grievance to their supervisor within 15 working days following the occurrence of the events on which the grievance is based. The supervisor shall give a verbal answer within three working days of the date of presentation of the grievance.
 - 2. If such grievance is not settled in Step 1, it shall be reduced to a reasonably detailed written grievance, dated and signed by each aggrieved employee, and presented in a meeting to the head of the Department within seven working days after the supervisor's oral answer is given. The head of the Department shall reply in writing to the grievance within seven working days of the date of presentation of the written grievance.
 - 3. If the grievance is not settled at Step 2, the grievance shall be presented in a meeting to the General Manager (or designated representative) within seven working days following delivery of the head of the Department's response. The grievance shall be presented along with all pertinent written material to date. The reply to the grievance shall be in writing within seven working days of the date of presentation of the grievance.
 - 4. Grievances not settled in Step 3 of the grievance procedure may be referred to arbitration by either party. Request for arbitration shall be made in writing within five working days after the Step 3 response is given. An impartial Arbitrator may be selected jointly or the parties may request the State Mediation and Conciliation Service to submit a list of five arbitrators. Each party shall in turn

cross off one name on the list, the first party to cross off a name to be determined by a flip of a coin. The final name left shall be the Arbitrator. The Arbitrator shall have access to all written statements and documents relevant to the grievance. The Arbitrator shall render his decision no later than 30 days after the conclusion of the final hearing. Such decision shall be in writing and shall be final and binding on parties and made in accordance with, and in conformance to, the Personnel Administrative Manual. Copies of the decision will be furnished to both parties.

The Arbitrator shall have no authority to add to, delete, or alter any provision of this Manual, but shall limit the decision to the scope, application and interpretation of the provisions of the Manual and shall make no decisions in violation of existing law.

- F. **Arbitration Costs:** The fees and costs of the Arbitrator shall be paid 60% by the District and 40% by the aggrieved employee. If any grievance is determined to be, in fact, frivolous, by the Arbitrator, the party having filed same shall pay all costs of arbitration, and shall in addition pay the sum of \$250 to the other Party in compensation for its legal and staff expenses. Otherwise, each Party shall compensate its own representatives and witnesses. The aggrieved employee and those District employees called as witnesses by the employee shall be on leave-without-pay status.

In case of a grievance involving any money claims against the District, no award shall be made by the Arbitrator which shall allow alleged accruals prior to the date when such grievance shall have been presented to the District in writing except in a case where the employee, due to lack of knowledge, could not know prior to that date that there were grounds for a claim. In such cases, retroactive claims shall be limited to a period of 270 calendar days prior to the date the claim was first filed in writing.

- G. **Pre-disciplinary Notice and Meeting:** In the event the District intends to discharge a Regular employee, to impose a suspension without pay or to demote a Regular employee, the District shall, if the employee has completed the original probationary period, utilize the following procedure:
1. The employee will be given written notice of the proposed disciplinary action not less than five calendar days prior to the effective date of the action. The notice shall set forth the reasons for the action and shall be accompanied by copies of written materials, if any, upon which the action is based.
 2. Prior to the effective date of the disciplinary action the employee may request and, if so, shall be granted an informal hearing to discuss the proposed disciplinary action. The informal hearing shall be conducted by the employee's head of the Department and shall be attended by the next immediate supervisor of the employee who is not a member of a bargaining unit. The employee may be represented. The purpose of this meeting is not to gather evidence for future meetings; therefore, no record will be made. Failing reconciliation, the formal grievance procedure may be used.

SECTION 22: DISTRICT RESIDENCE

- A. The District Residence Policy is included in the Revenue Operations Manual.
- B. Employees who reside in a District residence may have monthly rent deducted from their checks.

SECTION 23: BOARD OF DIRECTORS MEETINGS

A. Attendance at Board Meetings

1. General: An individual employee who wishes to attend a District Board meeting as a private citizen (as opposed to attendance as a member or representative of a union or association, which is covered in the Agreement or the MOU) should be given the opportunity to attend provided that person's absence from the job does not cause operating problems for the District.
2. Procedure
 - a. Requests for time to attend a Board meeting shall be made to the employee's immediate supervisor outside a bargaining unit.
 - b. If the request to attend the meeting can be granted at no cost to the District or without hardship or operating problems to the District, approval to attend the meeting shall not be unreasonably withheld.
 - c. Time taken to attend a Board meeting as a private citizen shall not be paid by the District; however, the employee may use vacation time or compensating time for this purpose.
3. Limitations
 - a. No park, Department or operating unit will be shut down through depletion of staff requesting attendance at any particular Board meeting.
 - b. Employees attending a Board meeting as private citizens shall be accorded the same privileges as other private citizens attending the meetings.
 - c. If employees attend Board meetings as private citizens but are in uniform, they shall inform the Board of their private citizen status.
 - d. Employees attending the Board meeting as private citizens shall not use such appearance before the Board to circumvent the normal processes available through the Labor Agreement, MOU or Personnel Administrative Manual.

B. Board Contact

1. Employee as Citizen: Any employee may contact a Board member, while not on paid time, as a private citizen or as a representative of a special group. Employees should clearly identify, to the Board member, the group they represent, if any.
2. Employee as Employee: When an employee is acting as a representative of the District (e.g., in uniform, on paid time, fulfilling the duties of the classification, representing management, etc.) such employee may not contact a Board member regarding a Board item without clearing that contact, in advance, with the General Manager's office and the originator of the Board item.

SECTION 24: MISCELLANEOUS

24.01 LOAN OF STAFF

- A. Interview Panels: A District employee may participate as a member of an interview or assessment panel for an outside agency with approval of a management level supervisor when such panels are not more than one day requirements.
1. Any request for participation requiring more than one day will require the approval of the head of the Department. Approval should be tempered by the reciprocal history of the requesting agency.
 2. Salary and benefits will be paid by the District. Should any other costs be associated with District participation, these costs will be borne by the requesting agency.
- B. Other Types of Participation: District employees may be allowed to assist other agencies (e.g. teach class, serve as speaker, etc.) subject to the following limitations:
1. Approved by head of the Department or higher level supervisor.
 2. Limited to five days per year of District time for any employee unless additional time is approved by the General Manager.
 3. The benefit to the District is commensurate with the expended time, and time is available from requesting employee's workload.
 4. The General Manager shall determine if reimbursement of the District is required for loss of the employee's services as a result of this type of participation. Reimbursement may include the employee's salary and expenses.
- C. Employee Time: There shall be no restriction on an employee's participation in outside agency programs on their own time, provided such participation does not impair efficiency in performance of, nor is incompatible with, District duties. Remuneration shall be at the discretion of the employee.

24.02 POLITICAL ACTIVITY

- A. General: Except as otherwise provided in this section and the Government Code, park employees may participate in political activities as they individually desire.
- B. Definition: As used in this section, "political activity" shall include engaging or participating in any partisan activities to promote a particular candidate or one side of a political issue in an election campaign, including but not limited to, soliciting contributions of campaign funds, circulating petitions, giving speeches, distributing handbills or advertisements, or promoting or planning any such political federal, state, or local activities. However, as used in these guidelines, political activities do not include legislative lobbying or similar non-election political activity.

C. Participating in Political Activities

1. No Park District employee shall participate in political activities while in District uniform or in any other way creating the impression that he/she is a representative of the East Bay Regional Park District.
2. No Park District employee shall participate in any political activity while on duty.

D. Use of District Funds or Property

1. No Park District employee shall expend or use, or authorize the expenditure or use of District funds or use of District property in or for the purpose of political activities. Pursuant to this section, District funds, labor or supplies shall not be used to print, distribute or circulate advertisement or promotional handbills.
2. Notwithstanding Section D (1) above, the District may authorize the expenditure of District monies and the use of District property for the purpose of disseminating non-partisan information to the general public in order to make a fair presentation of all relevant facts relating to a political issue which may affect the activities, function, powers, or duties of the District. For purposes of this section, the information disseminated must not be partisan nor promotional.
3. Notwithstanding Section D (1) above, a park representative or employee may make a presentation of the District's view or position on a political matter affecting the District, to any private or public organization, upon the specific request of the members of said organization.
4. Notwithstanding Section D (1) above, a Park District officer or employee may participate in the collection of information from or sampling of opinion of the public in connection with facilities, services, and events offered or proposed to be offered the public by the District.

E. Political Contributions

1. No Park District employee shall solicit political funds or contributions from other Park District employees. However, subject to Section D above, nothing in the section shall prohibit officers or employees from soliciting political contributions from a significant segment of the population which may include park employees.
2. Notwithstanding Section E (1) above, Park District officers and employees may solicit or receive political contributions to promote the passage or defeat of a ballot measure which will affect the rate of pay, hours of work, retirement, civil service or working conditions of the Park District employees.

24.03 SERVICE AWARDS

- A. Timing: The District will recognize employees who have served 5 years or more with the District. For this policy, recognized service with the District is defined as the employee's length of continuous employment with the District calculated from the most recent date of hire. The service award recognizes the anniversary of five year intervals but does not necessarily signify service for benefit purpose (e.g., vacation accrual, retirement, etc.).
- B. Leave: District approved leave of absence will be recognized as continuous time with the District for purposes of Service Award.
- C. Recognition: The District may present to those employees who have served 5 years or more some form of appropriate recognition.

24.04 MEMBERSHIP

District, Departmental, or Individual Memberships: District, departmental, or individual membership in an organization must be submitted to the division's Assistant General Manager for review and approval if the membership is essential to the accomplishment of District-related goals and is not solely related to the interest of the individual requesting membership (e.g. membership in the Municipal Finance Officers Association is essential regardless of who is Chief Financial Officer).

24.05 BUSINESS CARDS

Business cards may be secured for any park employee upon approval of the Assistant General Manager of the department. Design and format of the card is the responsibility of the Public Affairs Department and all cards must follow the approved design.

24.07 EMPLOYEES AS INDEPENDENT CONTRACTORS OR VOLUNTEERS

- A. General: Employees may serve as independent contractors or volunteers to the District provided such services are clearly outside the employees' normal duties (e.g., a secretary could serve as a docent volunteer at Sunol Regional Wilderness) and such service does not interfere with the employees' normal work duties.
- B. All standard requirements for contractors or volunteers will apply to employees who work as contractors or volunteers and there shall be no special treatment or advantage given the individuals as a result of their employment status.

SECTION 26: APPENDIXES

APPENDIX A: AMENDMENT TO THE EAST BAY REGIONAL PARKS GOVERNMENTAL MONEY PURCHASE PLAN AND TRUST ADOPTION AGREEMENT

Section VI.1. Fixed Employer Contributions With Or Without Mandatory Participant Contributions.

- A. Notwithstanding Section 4.03 of the Plan, each Employee eligible to participate in the Plan shall be given the opportunity during the initial period of eligibility (from the date of hire through the 60th calendar day thereafter) to irrevocably elect to participate in the Mandatory Participant Contribution portion of the plan by electing to contribute from 3% to 20% of the Employee's Earnings to the Plan for each Plan Year (subject to the limitations of Article V of the Plan). The Employer shall "pick-up" this contribution in accordance with Code section 414(h)(2). These contributions shall be accounted for in the Participants Contribution Account, and shall be nonforfeitable by the Participant at all times.

If the employee does not make an election in the initial period of eligibility, the election to participate in the Mandatory Participant Contribution portion of the Plan may not be made during the employee's service with the District.

An Employee's election is irrevocable and shall remain in force until the Employee terminates employment or ceases to be eligible to participate in the Plan. In the event of re-employment to an eligible position, the Employee's original election will resume. In no event does the Employee have the option of receiving the "pick-up" contribution amount directly. Participants DO NOT have the option of changing contributions during the election window period.

B. Accrued Leave

1. Notwithstanding Section 4.03 of the Plan, each Employee eligible to participate in the Plan shall be given the opportunity during the initial period of eligibility to irrevocably elect to contribute up to 500 hours of "FINAL PAY" (defined as accrued sick and vacation leave) that would otherwise be payable to the Employee upon termination. The Employer shall "pick-up" this contribution in accordance with Code section 414(h)(2). These contributions shall be accounted for in the Participant Contribution Account, and shall be nonforfeitable by the Participant at all times.

Contributions are subject to the 401(a) maximums as determined from year to year by the internal Revenue Service.

2. Each employee eligible to participate in the Plan shall be given the opportunity during the initial period of eligibility to irrevocably elect to contribute up to 80 hours of accrued leave to the Plan (subject to the limitations of Article V of the Plan). Accrued Leave shall be contributed to the Plan according to the following schedule:

October 15th to December 15th of the year for which the leave is being contributed.

Eligible Participant is defined as ALL MANAGEMENT PARTICIPANTS.

Accrued Leave shall be defined as accrued vacation.

The employer shall “pick-up” this contribution in accordance with Code section 414(h)(2). These contributions shall be accounted for in the Participant Contribution Account, and shall be nonforfeitable by the Participant at all times.

[Note to Employer: Neither an IRS advisory letter nor a determination letter issued to an adopting Employer is a ruling by the Internal Revenue Service that Participant contributions that are picked up by the Employer are not includable in the Participants’ gross income for federal income tax purposes. The Employer may seek such a ruling.

Picked up contributions are excludable from the Participant’s gross income under section 414(h)(2) of the Internal Revenue Code of 1986 only if they meet the requirements of Rev. Ruls.81-36, 1981-1C.B.255, and 87-10,1978-1C.B.136

Those requirements are (1) that the Employer must specify that the contributions, although designated as employee contributions, are being paid by the Employer in lieu of contributions by the employee; (2) the Employee must not have the option of receiving the contributed amount directly instead of having them paid by the Employer to the Plan; and (3) the required specification of designated Employee contributions must be completed before the period to which such contributions relate.]

Section VI.2. Each Participant may not make a voluntary (unmatched), after-tax contribution, subject to the limitations of Section 4.05 and Article V of the Plan.

Section VI.3. Employer contributions and Participant contributions shall be contributed to the Trust in accordance with the following payment schedule:

Bi-weekly payments on alternate Fridays.

APPENDIX B: EAST BAY REGIONAL PARK DISTRICT INFORMATION TECHNOLOGY APPROPRIATE USE GUIDELINES

Scope

This Guideline applies to all Users of IT Systems, including but not limited to employees, elected officials, consultants, volunteers and interns. It applies to the use of all IT Systems. These include systems, networks, and facilities administered by the Information Services Department.

Guideline Statement

The purpose of this Guideline is to ensure an information technology infrastructure that promotes the basic mission of the District. This Guideline aims to promote the following goals:

- To ensure the integrity, reliability, availability, and superior performance of IT Systems;
- To ensure that IT Systems are used for their intended purposes;

Reason for the Guideline

Information Technology ("IT"), the vast and growing array of computing and electronic data communications facilities and services, is used daily to create, access, examine, store, and distribute material in multiple media and formats. Information Technology plays an integral part in the District's daily functions. Users of the District's IT resources have a responsibility not to abuse those resources. This District IT Appropriate Use Guidelines (the "Guideline" or "AUG") provides guidelines for the appropriate use of the District's IT resources as well as for the employees' access to information about and oversight of these resources.

Most IT use parallels familiar activity in other media and formats, making existing District policies important in determining what use is appropriate. Using electronic mail ("e-mail") instead of standard written correspondence, for example, does not fundamentally alter the nature of the communication, nor does it alter the guiding policies. District policies that already govern freedom of expression and related matters in the context of standard written expression govern electronic expression as well. This Guideline addresses circumstances that are particular to the IT arena and is intended to augment but not to supersede other relevant District policies, resolutions, federal, state or local law.

Definitions

IT Systems: These are the computers, terminals, printers, networks, modems, wireless devices, online and offline storage media and related equipment, software, and data files that are owned, managed, or maintained by the District. For example, IT Systems include departmental and District wide information systems, internet access, e-mail, desktop computers, laptop computers, PDA devices, phones, wireless network equipment and other devices supported by IT. Cell phones, smart phones, and radios devices are supported by Public Safety.

User: A "User" is any person, whether authorized or not, who makes any use of any IT System from any location.

Systems Authority: While the District is the legal owner or operator of all IT Systems, it delegates oversight of all systems to the IS Department, in the case of IT systems purchased with non-IT or other funds, this oversight is still provided by the IS Department.

Systems Administrator: The IS Manager may designate another person as "Systems Administrator" to manage the particular system assigned to a specific department. Systems Administrators oversee the day-to-day operation of the system and are authorized to determine who is permitted access to particular IT resources related to that system.

Appropriate use of IT Systems

Although this Guideline sets forth the general parameters of appropriate use of IT Systems, departments may have policy manuals with detailed statements on permitted use and the extent of use that the District considers appropriate. In the event of conflict between policies, this Appropriate Use Guideline will prevail. Additionally, supervisors should review this guideline with their employees to ensure compliance.

- A. Appropriate Use.** IT Systems may be used only for their authorized purposes – that is, to support the functions of the District. It is not intended for personal use. District technology is made available for the purpose of increasing the effectiveness of communications, providing for increased productivity and facilitating research required to perform District related tasks. The particular purposes of any IT System as well as the nature and scope of authorized, incidental personal use may vary according to the duties and responsibilities of the User.
- B. Proper Authorization.** Users are entitled to access only those elements of IT Systems that are consistent with their authorization.
- C. Specific Proscriptions on Use.** The following categories of use are inappropriate and prohibited:
 - 1. Use that impedes, interferes with, impairs, or otherwise causes harm to the activities of others. Users must not deny or interfere with or attempt to deny or interfere with service to other users in any way, including by "resource hogging" (viewing video and listening to radio stations), misusing mailing lists, propagating "chain letters" or virus hoaxes, "spamming" (spreading e-mail or postings widely and without good purpose), or "bombing" (flooding an individual, group, or system with numerous or large e-mail messages). Knowing or reckless

distribution of unwanted mail or other unwanted messages is prohibited. Other behavior that may cause excessive network traffic or computing load is also prohibited.

2. Use that is inconsistent with District's Guideline Procedures. The District is subject to specific federal, state, and local laws regarding sources of income, political activities, use of property, and similar matters. As a result, personal or commercial use of IT Systems for non-District purposes is generally prohibited, except if specifically authorized and permitted by the General Manager's Office.
3. Use of IT Systems in a way that suggests District endorsement of any political candidate or ballot initiative is also prohibited. Users must refrain from using IT Systems for the purpose of lobbying that connotes District involvement. This proscription on use is not meant to limit or restrict legally authorized activities by the District, board or staff to advocate on behalf of District interests or positions.
4. Harassing or threatening use. This category includes, for example, display or access to offensive material of any kind as defined in, but not limited to HR Policies. The use of derogatory, obscene, suggestive, defamatory, or harassing language in the E-mail system or on the Internet is strictly prohibited.
5. Use damaging the integrity of District IT Systems. This category includes, but is not limited to, the following activities:
 - a) Attempts to defeat system security. Users must not defeat or attempt to defeat any IT System's security – for example, by "cracking" or guessing and applying the identification or password of another User, or compromising room locks or alarm systems. (This provision does not prohibit, however, ITS or Systems Administrators from using security scan programs within the scope of their Systems Authority.)
 - b) Unauthorized access or use. The District recognizes the importance of preserving the confidentiality of Users and data stored in IT systems. Users must honor this principle by neither seeking to obtain unauthorized access to IT Systems, nor permitting or assisting any others in doing the same. Furthermore, Users must not make or attempt to make any deliberate, unauthorized changes to data on an IT System. Users must not intercept or attempt to intercept or access data communications not intended for that user, for example, by "promiscuous" network monitoring, running network sniffers, or otherwise tapping phone or network lines.
 - c) Disguised use. Users must not conceal their identity when using IT Systems, except when the option of anonymous access is explicitly authorized (i.e. guest user)
 - d) Distributing computer viruses. Users must not knowingly distribute or launch computer viruses, worms, or other rogue programs.

- e) Modification or removal of data or equipment. Without specific authorization, Users may not remove or modify any District-owned or administered equipment or data from IT Systems.
 - f) Use of unauthorized devices. Without specific authorization, Users must not physically or electrically attach any additional device (such as an external disk, flash card, printer, wireless devices, personal computers or video equipment) to IT Systems.
6. Use in violation of law. Illegal use of IT Systems -- that is, use in violation of civil or criminal law at the federal, state, or local levels -- is prohibited.
 7. Use in violation of District contracts. All use of IT Systems must be consistent with the District's contractual obligations, including limitations defined in software and other licensing agreements.
 8. Use in violation of District policy. Use in violation of other District policies also violates this AUG. Relevant District policies include, but are not limited to, those regarding sexual harassment and racial and ethnic harassment.

D. Personal Account Responsibility. Users are responsible for the security of their own IT Systems passwords. Accounts and passwords are normally assigned to single Users and are not to be shared with any other person without authorization. Users are presumed to be responsible for any activity carried out under their IT Systems accounts. Managers may request specific application passwords from employees for safekeeping.

E. Responsibility for Content. Official District information may be published in a variety of electronic forms. The Department under whose auspices the information is published is responsible for the content of the published document.

F. E-Mail When sending or receiving E-mail, the following considerations apply:

1. Carefully select the recipients to receive an E-mail. Send only to those that need the information.
2. Transmitting the District's confidential information/data or sensitive information over unsecured E-mail is prohibited, unless expressly authorized by your departmental management.
3. Regularly check, open, read, and respond to E-mail sent to you.
4. Delete old messages on a regular basis.
5. When using E-mail, extreme care must be exercised when downloading attachments. Attachments must be scanned for possible viruses.
6. Questions regarding E-mail and the Internet should be addressed to the District's Information Services Help Desk.

7. E-mail responses sent to the public taking a position on an issue that may later need to be supported by management, or commenting on what would be considered a sensitive issue, should be at the direction of a Department Head or District Manager, with either the Department Head or District Manager being “copied” on the message.
8. Most communications (including E-mail) among District employees are not considered confidential. However, certain communications, personnel records and police investigations, may be confidential and should be discussed with the employee’s supervisor prior to use of E-mail.
9. Employees shall exercise caution in sending confidential information on the Email system as compared to written memoranda, letters or phone calls, because once sent, E-mail cannot be retracted or controlled.
10. Confidential information should not be sent or forwarded to individuals or entities not authorized to receive that information and should not be sent or forwarded to other District employees not directly involved with the specific matter and expressly authorized to view.
11. Requests for employee access to the Network and E-mail systems should be made by the employee’s supervisor and sent to the Information Services help desk.
12. Department managers must authorize requests to Information Services for accounts for temporary or contract employees.
13. Departments requesting technology access for all employees must inform Information Services to remove E-mail access for that employee at termination.
14. The use of the District E-mail system for the advertising of personal items or services is unacceptable. The District has established a public “Bulletin Board” Email account for non-District business where employees may share general information.
15. Reading someone else’s E-mail without authorization is considered inappropriate. While no E-mail to a District E-mail address is considered private, confidential matters may be discussed over E-mail therefore proper business etiquette dictates that proper authorization be obtained before reading another person’s E-mail.
16. Do not send E-mail under someone else’s name unless authorized by your supervisor or manager.

The District recognizes that there are times when electronic communications are appropriate which are not strictly speaking concerning District business. Such instances include death announcements, birth announcements, etc. Such uses of electronic communication are acceptable when done in accordance with all other aspects of this guideline. When doubts

arise about the appropriateness of a communication, the direct Department Head should be consulted. Vacation announcements should not be sent to EBRPDALL but rather contained to the employee's work group.

- G. Internet.** District Internet facilities are for District-related purposes only. The Information Services Manager shall have the final review as to the appropriateness of material and usage of the Internet. Information Services reserves the right to block access to Internet sites based on subject category or known abuse.

District departments shall use the District's Internet web site for all Internet postings and shall not initiate new or separate services outside of the District's designated services.

Access to the Internet and use of its capabilities to produce or transmit data is not considered private or confidential. Information produced through use of the District Internet system, Email, cell phones, and all other District owned technology either in hard copy or electronic format, is considered District property and may be accessed and reviewed without prior notice by the District.

The Information Services Department has technical responsibility for setting up and managing Internet resources.

Information regarding Internet sites accessed by employees may be considered public information. Access to all sites on the Internet, by any of the staff, is recorded and is subject to review. Access to and/or use of sites that is deemed to be non-District related may result in disciplinary action as described in the District's Administrative Manual and/or MOUs.

When using the Internet no programs or executables should be downloaded without permission from the Information Technology Department. All such files must be scanned for possible viruses. Programs often make changes to desktop systems which conflict with other District software. No software is to be loaded on District computers without permission from Information Services.

- H. Intranet** District Intranet facilities are for internal communications purposes only. The Information Services Department provides capabilities on the Intranet to post information to be shared between employees. Information Services will be responsible for reviewing such postings to insure they meet with all aspects of this guideline.
- I. Software** Each piece of software operating on District property shall have a valid registration and be covered by a valid licensing agreement. Software and its associated documentation are covered by Copyright Laws and subject to licensing agreements. Appropriate documentation to substantiate the legitimacy of the licenses shall be forwarded to Information Services.

Unauthorized or unlicensed software will not be used on District systems.

Authorization to use software on District systems shall be obtained from the Information Services Manager. If approved, Information Services will either authorize the individual to install the software or install the software for the person, at Information Services discretion.

- J. Phones** All District phones and related telecommunications devices, regardless of type (land line, wireless cell phone, or wireless smart phones) are provided as a tool to conduct District business. The District expects that all such devices will be used in a responsible manner for work purposes only.

Calls to user pay phone numbers (e.g. 900,976) are prohibited.

Conditions of District Access/Privacy

The District places high value on confidentiality. There are nonetheless circumstances in which the District may determine that certain broad concerns outweigh the value of a User's expectation of privacy. All employees, volunteers and elected/appointed officials are to keep in mind that the District's technology resources and all the information contained therein are properties of the District and that **no employee should have expectation of privacy regarding the information on the District's computer system.**

Employees should be aware that any technology media or communication involving the District's technology resources are considered at all times to be District records. They may be considered public record and be subject to disclosure under the California Public Records Act, government code section 6250 et. Seq., or other lawful requests regardless of designations of "private" or "confidential". The District shall comply with all lawful requests for information and shall not be held liable for such lawful disclosure in any manner. Electronic media is also subject to the provisions of the Brown Act and all electronic discussions between elected officials must follow the Brown Act guidelines.

Although the District does not read and review electronic files on a routine basis, the District has the capability to access, monitor, and review, copy and/or disclose any electronic media communications. The District also employs technology to screen electronic communications for such things as viruses or access to inappropriate web sites.

The District reserves the right to do so this for any proper District purpose in accordance with the Electronic Communications Privacy Act of 1986. The District may make backup copies of electronic files. This means that files may be restored, even if the user believes the files have been deleted. An individual's use of technology or electronic media is consent for the District to act accordingly.

Enforcement Procedures

Violations of this guideline will result in disciplinary action as described in the District's Administrative Manual and/or MOUs.

Guideline Development

This Guideline may be periodically reviewed and modified by the Information Services Department, who may consult with relevant Departments, Committees, Council, and staff.

APPENDIX C: ETHICAL GUIDELINES POLICY

You should not attempt to use your position with the District in any outside capacity for your personal gain or benefit.

Directors and employees in certain District job classifications are also subject to the California Political Reform Act which is administered by the Fair Political Practices Commission. The requirements and conditions imposed by Act are detailed in the District's Conflict of Interest Manual and the positions subject to the FPPC requirements are listed in the detail information section of these guidelines.

Gratuities

The District buys many goods and services. Our purchasing policy is to award business on the basis of merit, without favoritism. Whenever possible or where required by law, business will be awarded on competitive basis.

If you purchase goods or services on the District's behalf, you are expected to use good judgment in your dealings with suppliers. This means that you are obligated not to give or accept money, gifts of other than nominal value, loans, unusual entertainment, or any other preferential treatment in your dealings with suppliers. This obligation extends to your immediate family as well.

Making Contracts

Government Code Section 1090 contains provisions for disqualification from making contracts where an employee may have a financial interest in such contract. District Resolution 1988-11-420 contains the entire policy and the Administrative Manual contains the checklist procedure for implementation of this policy. If you participate in the negotiation or execution of contracts on behalf of the District, it is your responsibility to be familiar with and abide by these regulations.

Contracting Procedures

The District contracting procedures are contained in the Board Operating Guidelines and provide the detailed procedures regarding the contracting process.

District Funds and Property

Protecting District funds and property is a responsibility shared by each employee. If you handle District funds or revenues, or are responsible for associated accounting records, you are personally accountable for their safekeeping. In addition to cash this includes checks and credit cards.

In the same way, employees are responsible for District property left in their care or assigned to them. District property should not be used for unauthorized personal benefit nor for any other improper use. Clearly, District property should not be sold, loaned, given away or destroyed without proper authorization. This is true regardless of the condition of the property.

Drugs

Employees are specifically prohibited from drinking alcoholic beverages or using illegal drugs while at work on District premises, or reporting to work or driving a District vehicle while under the influence of alcohol or any illegal drug.

Any employee who is taking medication which may impair his/her ability to work safely and efficiently must inform his/her supervisor

Personal Protection

Employees are entitled to feel safe and free from bodily harm on the job. Except for the Public Safety Department, no employee may possess or permit others to have explosive devices, incendiary materials, firearms or other dangerous weapons, whether licensed, concealed or otherwise, on any District premise, in District vehicles, or while engaged in any District activity. Certified non-Public Safety personnel may carry mace for personal protection.

Personal Use of District Phones

Official District phones and other communication facilities are provided for the conduct of District business. Their use by employees for making local (not long distance or toll) personal calls may be permitted provided such does not interfere with the conduct of the District business and they are of reasonable frequency and duration in the judgment of management.

Personal Use of District Postage/Mail Facilities

District postage and mail facilities are provided for the conduct of official business only. Use of District facilities for personal mail is not permitted.

APPENDIX E: ADMINISTRATIVE LEAVE

Applies only to Management Employees covered by CalPERS after 12/30/00, and to Union employees but only to the extent specifically stated in Section 6.04.E of the Personnel Administrative Manual and Section B below in this Appendix E.

With the exception of Public Safety Managers, all full-time regular Management employee shall be entitled to receive forty (40) hours per fiscal year of Administrative Leave in recognition of the District's expectation that members of the Management Employee Group routinely and consistently perform the duties of their positions during times which involve hours in excess of the normal forty-hour work week. Said forty (40) hours shall accrue on January 1 of each calendar year. Administrative leave will only be taken in paid time off. Administrative leave may not be carried forward from one calendar year to the next. Immediately upon hiring, a new employee shall be entitled to receive administrative leave at the rate of 1.538 hours for each pay period of employment remaining in the calendar year during which the employee was hired. Administrative Leave hours shall not be converted to cash payout in lieu of leave.

A. Supplemental Administrative Leave for Non-Public Safety Managers

Management employees are also eligible to receive up to an additional forty (40) hours of administrative leave per calendar year. It is recognized that not all members will satisfy the eligibility criteria and only those satisfying the criteria may receive additional hours.

In general, to qualify for supplemental leave, an employee must be required to work additional hours substantially in excess of the customary work week. The first step of determining whether an employee is required to work extra hours shall be a determination made by the Division Head, along with a recommendation as to the amount of supplemental leave recommended. In making this determination, the Division Head is expected to distinguish between that which is typical for someone in the Unit versus that which is extraordinary. Illustrative of the factors to be considered are the extent to which an individual:

1. Attends evening meetings and whether attendance at same is a recurring obligation;
2. Regularly performs District-related duties beyond usual working hours in response to direction from his or her Division Head.

Once a Division Head has identified proposed supplemental hours for an employee, he or she will submit the recommendation to the General Manager for consideration. The Division Head may request eight hours or an even increment of hours up to 40. No more than 40 hours of supplemental leave will be granted. The General Manager may approve or modify the recommendation. The General Manager's decision shall be final.

Supplemental administrative leave earned but not used may not be carried forward from one calendar year to the next, nor may unused hours be converted to cash.

Managers shall submit their request for supplemental administrative leave to their supervisor by December 1st of each year. The request must be approved by the supervisor and AGM and submitted to the General Manager by December 31st. Approved supplemental administrative leave requests will be received on the third pay period of the following year. The General Manager may accept recommendations for supplemental

leave during the year if the Division Head believes the recommendation is warranted.

B. Supplemental Compensatory Time Off for Union Employees Assigned to Work in an Acting Management Classification More Than Thirty (30) Consecutive Days

Union employees (including employees represented by AFSCME Local 2428 and the EBRPD Police Association) are also eligible to receive up to an additional forty (40) hours of compensatory time off in addition to the compensatory time off provided in Section 6.04.E when working in an acting management classification more than thirty (30) consecutive days. It is recognized that not all such employees will satisfy the eligibility criteria and only those satisfying the criteria may receive additional hours.

In general, to qualify for supplemental compensatory time off under this subsection, an employee must be required to work additional hours substantially in excess of the customary work week. The first step of determining whether an employee is required to work extra hours shall be a determination made by the Division Head, along with a recommendation as to the amount of supplemental leave recommended. In making this determination, the Division Head is expected to distinguish between that which is typical for someone in the Unit versus that which is extraordinary. Illustrative of the factors to be considered are the extent to which an individual:

1. Attends evening meetings and whether attendance at same is a recurring obligation;
2. Regularly performs District-related duties beyond usual working hours in response to direction from his or her Division Head.

Once a Division Head has identified proposed supplemental compensatory time off hours for an employee, the Division Head will submit the recommendation to the General Manager for consideration. The Division Head may request eight hours or an even increment of hours up to 40. No more than 40 hours of supplemental leave will be granted. The General Manager may approve or modify the recommendation. The General Manager's decision shall be final.

Any supplementary compensatory time off provided a Union represented employee during or at the end of the acting management classification assignment will go to the employee's compensatory time off bank and will be subject to the same rules and cash-out rights and rate as applicable to the employee's regular Union position.

However, Public Safety Managers are not eligible for supplemental administrative leave as noted above. All other aspects of the program (when the time is accrued, how it is accrued, that it cannot be carried over, that it cannot be converted to cash) apply.
