

Niles Beach at Quarry Lakes Water Quality Status

ADVISORY

WATER DOES NOT MEET STATE STANDARDS

Beach remains open. Weekly testing for bacteria does not meet state health standards. Beach water contact may cause illness. Do not swallow water. Shower and towel dry after water contact. There is always some risk with beach water contact. Water quality conditions can change at any time.

For more information, contact the East Bay Regional Park District (510) 544-2328

ALERTA

EL AGUA NO CUMPLE CON LAS NORMAS ESTATALES

La playa sigue abierta. Las pruebas semanales de bacterias en el agua NO cumplen las normas estatales de salud. El contacto con el agua de la playa puede provocar enfermedades. No trague el agua. Báñese y séquese con una toalla después de haber estado en contacto con el agua. Siempre hay cierto riesgo al entrar en contacto con el agua de la playa. La calidad del agua puede cambiar en cualquier momento.

Para más información, contacte el East Bay Regional Park District (510) 544-2328

 EAST BAY REGIONAL PARK DISTRICT

Yellow Light: Beach is Open. There is an increased health risk

Water Quality “Stop Light” Designations:

Red Light: Beach is Closed. No swimming, wading or water contact. There is a Water Quality Hazard.

Yellow Light: Beach is Open. There is an increased health risk for swimming and wading. Bacteria results do NOT meet the State Health Standards.

Green Light: Beach is Open. Low health risk for water contact. Bacteria results are within the State Health Standard Limits.

Current Data

DATE	NORTH BEACH	SOUTH BEACH	State <i>E. coli</i> Limits	Blue-Green Algae	
	<i>E. Coli</i> Result	<i>E. Coli</i> Result		Visual Observation	Signage Posted
June 11 th	1200	1100	*235	Present	Caution Advisory
June 4 th	41	110	*Results above these numbers result in Yellow Light	Present	Caution Advisory
May 29 th	210	52		Present	Caution Advisory
May 20 th	41	41		Present	Danger Advisory
May 14 th	41	10		Present	Danger Advisory
30-Day Geometric Mean	112	76	*126		

State Water Quality Bacteria Levels:

Daily Maximum Level for *E. coli*: 235

30 Day Geometric Mean Maximum for *E. coli*: 126

All results expressed as bacterial density (Most Probable Number) per 100 mL

State Water Quality Blue-Green Algae Guidance

State recommendations are to close lakes to swimming with the detection of:

6 ppb of Microcystin toxin

20ppb of Anatoxin-A toxin

4 ppb of Cylindrospermopsin toxin
