

Shadow Cliffs Beach Water Quality Status

ADVISORY

WATER DOES NOT MEET STATE STANDARDS

Beach remains open. Weekly testing for bacteria does not meet state health standards. Beach water contact may cause illness. Do not swallow water. Shower and towel dry after water contact. There is always some risk with beach water contact. Water quality conditions can change at any time.

For more information, contact the East Bay Regional Park District (510) 544-2328

ALERTA

EL AGUA NO CUMPLE CON LAS NORMAS ESTATALES

La playa sigue abierta. Las pruebas semanales de bacterias en el agua NO cumplen las normas estatales de salud. El contacto con el agua de la playa puede provocar enfermedades. No trague el agua. Báñese y séquese con una toalla después de haber estado en contacto con el agua. Siempre hay cierto riesgo al entrar en contacto con el agua de la playa. La calidad del agua puede cambiar en cualquier momento.

Para más información, contacte el East Bay Regional Park District (510) 544-2328

 EAST BAY REGIONAL PARK DISTRICT

Yellow Light: Beach is Open. There is an increased health risk

Water Quality “Stop Light” Designations:

Red Light: Beach is Closed. No swimming, wading or water contact. There is a Water Quality Hazard.

Yellow Light: Beach is Open. There is an increased health risk for swimming and wading. Bacteria results do NOT meet the State Health Standards.

Green Light: Beach is Open. Low health risk for water contact. Bacteria results are within the State Health Standard Limits.

DATE	NORTH BEACH <i>E. Coli</i> Result	SOUTH BEACH <i>E. Coli</i> Result	State <i>E. coli</i> Limits	Blue-Green Algae	
				Visual Observation	Signage Posted
September 10 th	86	500	235	Present	Caution Advisory
September 4 th	370	210	*Results above these numbers result in Yellow Light	Present	Caution Advisory
August 27 th	340	31		Present	Caution Advisory
August 20 th	30	200		Absent	Caution Advisory
August 14 th	75	120		Present	Caution Advisory
30-Day Geometric Mean	154	239	*126		

State Water Quality Bacteria Levels:

Daily Maximum Level for *E. coli*: 235

30 Day Geometric Mean Maximum for *E. coli*: 126

All results expressed as bacterial density (Colony Forming Units or Most Probable Number) per 100 mL

State Water Quality Blue-Green Algae Guidance

State recommendations are to close lakes with the detection of:

6 ppb of Microcystin toxin

20ppb of Anatoxin-A toxin

4 ppb of Cylindrospermopsin toxin
