HISTORY Kennedy Grove Regional Recreation Area was dedicated on October 22, 1967, to honor the late President John F. Kennedy. Kennedy Grove was once a portion of the 17,754-acre Rancho San Pablo. Francisco Castro took possession of the rancho in 1823. Later the grove was the site of the Clancy Ranch. In 1886 the California and Nevada Railroad ran through the center of Kennedy Grove.

THE PARKLAND The trimmed lawns, picnic areas, and shady groves here are ideal for formal and informal gatherings, from company picnics to family reunions. The centrally located, 2.5-acre turf meadow provides enough room to toss a frisbee, pass a football, or set up an informal softball game. (Hardball is not permitted.) Volleyball and horseshoes are popular with all ages, and equipment may be rented for a minimal fee.

The park's northern section provides public access to the Bay Area Ridge Trail between Kennedy Grove and Tilden Regional Park. The II9-acre Radach Hill northern section is a mosaic of open grassland, shrub land, and oak woodland vegetation, providing open space and hiking opportunities. The flora includes a mixture of native trees and shrubs, native and nonnative annual and perennial herbaceous plants, and a

small stand of eucalyptus. Oak/bay woodland is the most prevalent plant community, with coast live oak and California bay laurel being the dominant trees. Fauna include the California newt, ringneck snake, mule deer, western fence lizard, and a variety of birds including the red-shouldered, red-tailed, and Cooper's hawks, northern flicker, orange-crowned warbler, and Anna's hummingbird, among other species.

**FERN COTTAGE** This reservable facility is suitable for meetings, parties, receptions, etc. It features a kitchen, patio, large room, private enclosed backyard, and a large redwood deck.
